

## **Buying office furniture**

What do you look for when you shop for office furniture? Price, comfort, customer service and ongoing support? While furniture buyers tend to focus on one or two of these issues in an effort to save money when making their purchasing decisions, beautiful and affordable MAiSPACE furniture has the ability to meet all work environments needs and stay within budget.

## **Quality office furniture at affordable prices**

MAiSPACE promises to beat any competitor's price for high quality office furniture. We do not compromise quality. We seek to provide style, comfort and function at an affordable price. We offer unlimited office furniture options that appeal to different tastes and budgets. We are inspired by you and your needs and strive to make your office an inspiring place. "Our goal," says co founder and Vice President of the company, Mark Bassil "is to not only give the end user a great looking, highly functional product group at a price he can afford, but to also allow them to maintain their standard of excellence and aesthetics within any budget. Small to mid-size companies now have the advantage of buying and looking like the big guys."

## **Ongoing support: Dedicated to customers from day one**

At MAiSPACE, we take pride in our excellent service. It wasn't enough for us to provide clients with a low cost, high quality alternative to high priced office furniture systems. We also invested in a service program that actually facilitates and complements growth. "At MAiSPACE we are proud that what differentiates us and our distribution network, is our superior level of in-house support services and a team of dedicated professionals," says Mark Bassil, MAiSPACE co-founder and Vice President Mark Bassil. "Whether you are a small or mid-size company making a major furniture purchase or a large corporation looking for new global furniture standard, MAiSPACE service is second to none." With a team of nationwide dealers, offices and distributions facilities on both East and West coasts, and free CAD services to purchasing customers, MAiSPACE feels completely confident and proud to deliver any size project on time and on budget.

## **Commitment to environment, consumer health and safety**

We believe in creating the right working environment with respect to the environment. We produce 100% environmentally safe, eco-friendly, and chemical and fiberglass free office furniture products that do not emit chemical odors keeping the air you breathe healthy. We take pride in our products, because as the manufacturer, we apply strict controls throughout the manufacturing process guaranteeing you that the most stringent standards are being met.

MAiSPACE offers safe and recycled materials. Unlike most office systems, which are filled with fiberglass that doesn't break down in landfills and is a source of airborne glass, we use post-consumer polyethylene terephthalate (PET) from ground up soda bottles. We hope other manufacturers will follow our lead. Due to the large number of plastic containers being discarded, much of this material goes unused. We've found a use for it that makes sense from every perspective.

We also produce low impact products through low impact processes. For one of our lines, MAiOFFICE, we use a state of the art thermo-forming manufacturing process. A poly-acrylic 5 Step UV finishing process results in a durable finish that does not fade in daylight exposure. Most importantly, the process is environmentally friendly, while being stain and solvent resistant. "It is simply the most durable and elegant finish available," says MAiSPACE co-founder Mark Bassil.

### **Comfort: ergonomic, functional products, and space-saving workstations**

At MAiSPACE, we are constantly working to elevate productivity and performance of the our dedicated teams. We adopt an approach to interior office design that is based on the principles of efficiency, harmony, aesthetics, and functionality. We offer new office furniture products that are flexible, ergonomic, stylish, elegant and functional. We customize furniture according to your working style and environment to create space-saving, productive workstations.

MAiSPACE offers a variety of new office furniture systems that are finely crafted, extremely stylish, exceptionally affordable, and exceedingly versatile ... all designed to meet your needs. We deliver for our customers great products at great prices. Yet another example; MAiCHAIR, MAiSPACE's revolutionary ergonomic chair, incorporates comfort, style and technology at a great value. MAiCHAIR comes in a variety of colors, styles, and fabrics. It's designed to adapt to your motion and easy to customize with one easy adjustment mechanism. It will help you to find the most comfortable position by conforming to the spine and providing critical support in the lumbar region. Choosing the right chair can change your life in a significant way. MAiCHAIR is certainly a "must have" product for the modern office.
