

Buying office furniture is not something that you can take lightly; it is a major investment. You must consider the office floor plan, the ergonomics of your workstation environment, the amount of lighting, the storage space, the seating, and of course most importantly the cost. At MAiSPACE, we are keenly aware of these factors. We know that you are looking for the highest quality office furniture at affordable prices. When you start shopping for new office furniture we know it can be confusing, overwhelming, and even frustrating. High quality office furniture comes at high prices, and people expect low quality when a product is "cheaper." Not necessarily! At MAiSPACE we challenge this.

Discount office furniture should not and does not mean low standards and quality. We firmly believe that high quality, style, elegance, and function can all come at an affordable price. At MAiSPACE, we want you to buy a product for the rest of your life. We want you to be happy with your choice, and that's why we support our discount office furniture with a lifetime warranty, for as long as you own the product. That's why our motto is: Satisfaction with Savings!

We bring a fresh approach to discount office furniture. Creative, functional, and stylish MAiSPACE office workspaces compete with expensive alternatives. We promise the lowest price to our customers, and that's why we will beat our competitors' price for top quality office furniture. Each line of discount office furniture available at MAiSPACE offers specific features to meet your needs. The least expensive office furniture solution is not necessarily pre-owned furniture which has functional and aesthetic limitations. We believe you can buy new discount office furniture without compromising quality.

With years of experience, we save customers hundreds, even thousands of dollars on their office furniture. We have thousands of satisfied customers, both large and small, all of whom know that they get what they want at a great value. For instance, when ScienceFirst, a leading company in medical education, first came to us with a limited construction and furniture budget and high aesthetic expectations, every dollar had to be used wisely. For this growing, successful company, we needed to incorporate a design that reflected their company profile and make a statement about them. We created a great workspace at a great value while meeting all of their requirements; including budget!

When, another of our clients, Monarch Health outgrew its existing space in Technology Park in Irvine California it decided to lease an additional 24,000 square feet in the same development. The challenge was to create a vibrant new workspace and to stay within a strict budget. Tom Wilshart, Office Administrator for Monarch Health explains why they decided to go with MAiSPACE for this daunting task: "The project was competitively bid and MAiSPACE won the business hands down as the furniture supplier. MAiSPACE's MORSPACE frame and tile system offered the features we wanted for about the same price as the other lower quality monolithic systems. I'm able to report that our employees are very happy in their new digs."

At MAiSPACE, customer satisfaction with savings is what we strive to deliver ... excellent value in office furniture at an affordable price. These examples of customer needs and situations are testaments to our belief that high quality does not need to cost a fortune.

We pioneer and employ cutting-edge production techniques, impeccable materials and first-rate hardware; the key to why we have always been the champion of high quality construction. Stability, strength, safety and style are key components of our discount office furniture. "Our objective is to provide customers with beautiful and functional offices without sacrificing affordability or performance," Mark Bassil says. "Moreover, we commit to meeting project time frames, quick turnarounds and fast resolutions to revisions. These services are free with a signed purchase order or order placement."

Just tell us what you want, when you need it and we can give you an immediate quote including delivery and installation. We are working to make you happy.
